PROFESSIONAL SUMMARY

Performance-driven Full-Stack Developer specializing in responsive, accessible digital solutions. I blend technical expertise in frontend and backend development with UI/UX design to deliver seamless experiences across AI, Edu-tech, health-tech, and enterprise platforms.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, Javascript, Tailwind CSS, Sass, React JS, Next.js, TypeScript, Responsive & Accessible Design (a11y).
- **Backend & Databases:** Node JS, MongoDB, Firebase, Supabase, RESTful APIs, WebSocket integration.
- **Tools & Platforms:** GIT, Github, Figma, DaisyUI, Vercel, Postman.
- **AI & Integration:** Google Gemini API, Speech-to-Text/ASR SDK integration, Web Speech API.

WORK EXPERIENCE

Orbitals AI | *Frontend Developer* | 2026 – Present

- Contributed to the development and maintenance of user-facing interfaces and developer tools for an AI platform specializing in transcription, translation, and streaming speech recognition for African languages.
- Developed and refined interactive real-time audio playgrounds and streaming interfaces leveraging WebSockets and Orbitals AI JavaScript/TypeScript SDKs, under the technical leadership of the CTO.
- Collaborated with backend engineers and product teams to support the implementation of developer documentation, developer dashboards, and billing/usage flows in alignment with technical requirements.

Freelance / Contract Web Developer | 2025 – Present

Executed diverse web development projects for various clients, delivering accessible and performant solutions including healthcare platforms (**CareWeb Healthcare**), career bootcamps (**LearnD365FO**), real estate applications (**Jarus Homes, Africa Property Hub & SHD Properties**), and comprehensive educational management portals (**AI-Abraar Academy, Tahleem & TechinEjigbo**).

FEATURED PROJECTS

CareWeb Healthcare | [Link](#)

- Built a comprehensive, high-performance web platform for a UK complex healthcare and live-in care provider.
- Implemented clean UI/UX for fast rapid-matching inquiries and accessible navigation for elderly care and clinical services.

LearnD365FO | [Link](#)

- Developed the primary landing and bootcamp enrollment platform for a D365FO career transition company.
- Focused on high-conversion layouts, clear typography, and seamless waitlist integrations for prospective students.

Africa Property Hub | [Link](#)

- Developed a comprehensive African real estate platform designed to help users build, buy, sell, rent, and manage properties.
- Engineered interactive property listings and optimized the user journey for both property seekers and agents.

Jarus Homes | [Link](#)

- Designed and built the official web presence for a real estate firm serving both middle-class housing solutions and high-end markets, focusing on a modern aesthetic and performance.

SHD Properties | [Link](#)

- Developed and built the official web presence for a property development firm, focusing on a modern aesthetic, clear presentation of property portfolios, and optimized site performance.

Tahleem | [Link](#)

- Co-founded and architected an AI-powered Islamic education startup platform.
- Integrated AI models to deliver automated Tajweed feedback, Arabic language learning modules, and interactive Quran study tools, built with a scalable frontend architecture.

AI-Abraar Academy | [Link](#)

- Developed a responsive educational landing page, student portal, teacher's portal, and admin portal to streamline course discovery, enrollment, and academy management.

TechinEjigbo | [Link](#)

- Designed and built the NGO's official landing page and developed a comprehensive student portal, featuring an integrated exam portal system for student assessment.

CERTIFICATIONS

- **Responsive Web Design Certification** - Learn-With-Ease Academy (August 21, 2024)
- **Frontend Development Certification** - TechBridge Program (May 29, 2025)

LEADERSHIP & VOLUNTEERING

- **Lead Volunteer** – *TechinEjigbo*

Currently a lead volunteer at TechinEjigbo, an NGO that empowers students in Ejigbo, Lagos with tech skills.
